Le Malaga

Welcome to the lake

Welcome to our home! We're really happy to host you at Le Malaga. Make yourselves at home: enjoy the lake, a good fire in the fireplace and the quiet of the forest. If you have any question at all, just write to us.

How things work

Front door Locking up

From outside (with the key)

1. Close the door.
2. Lift the handle up. A little pressure is normal.
3. Turn the key right (clockwise) all the way.
4. Turn back slightly to remove the key. It's locked!

From inside

1. Close the door.
2. Lift the handle all the way up. This sets the latch.
3. Turn the small knob left (counterclockwise) all the way.
4. To check, try opening with the handle.

Fireplace Wood and top-down fire

Important: logs go across the width of the fireplace (left to right), never front to back.

Firewood

1. The wood is outside, near the front door.
2. Store a few logs in the space under the fireplace.

Opening the fireplace door

1. Metal key at the top right of the door: turn it slightly.
2. The door is spring-loaded: hold it open with one hand.

Building a top-down fire

1. Big logs at the bottom, one right at the front so nothing rolls toward the door.
2. Medium logs on top.
3. Small kindling on top of that.
4. Light it from the top. The fire works its way down!

Keeping it going

1. Gently add normal-size logs.
2. Split logs catch more easily than round ones.

Stove Gas burners, electric oven

Lighting a burner

1. Knob on “Off”.
2. Push in and turn left...
3. Click! Gas is flowing. Wait a few seconds.
4. Flame's on. Adjust the heat.

Steps

1. The small dots above each knob show which burner it controls.
2. Push the knob in and slowly turn it left.
3. A click: that's the auto-igniter, gas is flowing.
4. Hold that position a few seconds until the flame appears.
5. Adjust the heat. To turn off, go back to “Off”.

Good to know

1. The burners run on gas, but the oven is electric.
2. If the gas runs out, use the electric oven or the induction burner stored in the entrance closet.

Patio doors Handle turns 180°

Important: only slide the door when the handle is down.

How it slides

- **Closed.** Handle up: the door rests on the floor, fully closed.
- **Handle down.** The door lifts onto its rollers, ready to slide.
- **Open.** Slide it. Keep the handle down while it's open.

Opening

1. The door must be closed.
2. Turn the handle 180° down: the door lifts onto its rollers.
3. Slide the door open.

Closing

1. Slide the door all the way closed.
2. Turn the handle back up: the door settles onto the floor.

Windows Tilt and turn

Before leaving: every handle down. It gets very windy by the lake: a window that isn't fully closed can blow open and let rain in (it has happened!).

The 3 positions

- **Closed.** Handle down: window closed and locked.
- **Like a door.** Handle sideways: the window swings fully open.
- **Airing.** Handle up: only the top tilts open.

Good to know

1. Only change the handle position when the window is closed.
2. To close: push the window against the frame, then turn the handle down.

Heating Already set up

Easy

1. Heating and air exchanger run on their own.
2. Only use the ▲ and ▼ arrows to set the temperature.
3. Please don't change the other menus.

What heats what

1. The thermostat in the main hallway controls the whole floor.
2. Each bathroom has its own heating.
3. The basement has heated floors.

Record player Vinyl and music

Important: never force the arm. Always use the small lever (see the video).

Playing a record

1. Raise the small lever: the arm lifts up.
2. Gently move the arm to the left, over the record.
3. Lower the small lever: the arm sets down and the music starts.

To hear the music

1. Turn on the small black box: press the button, a small blue light comes on.
2. Turn on the speaker and set it to “Aux” (auxiliary).

Enjoy the lake · Before you leave

💧 Water

- The water comes from an artesian well. It may smell a little of sulfur, but it's filtered and safe to drink.
- The well isn't unlimited: please use water sparingly.
- For drinking, we mostly use the filtered water from the fridge (left door).
- You can also use the water jug.

🧂 Help yourselves

- Fridge condiments, salt, pepper, spices, oil: no problem, help yourselves!
- Everything... except my big bottles of booze. 😉

🏓 Ping-pong table

- The surface is fragile.
- Please don't put anything on it: no plates, food, drinks or anything wet.
- It's just for playing!

Life jackets

- They're in a bin outside, under the deck.
- Help yourselves, they're there for you!

Cleaning products

- Please don't bring your own products.
- Use only the ones in the house: they're biodegradable.
- The house has a septic tank and sits right by the lake. We want to keep the lake healthy!

Fire, BBQ and garbage

🔥 Outdoor fires

- Two spots: the big fire pit all the way down (for larger gatherings) and the small fire pit at basement level, with its wood right next to it.
- **Before every fire, call 819 843-0000** (8 am to 10 pm, every day). The recorded message (in French) says whether fires are allowed today.
- Leave your name and the house address (in the printed guide).

🍖 BBQ and plancha

- The BBQ uses charcoal briquettes. There's also a plancha (griddle).
- Use them outside only, away from walls and trees.
- Never leave them unattended, especially with kids around.
- Let the ashes cool completely before throwing them out.
- Clean the plancha after use, while it's still warm.

♻️ Garbage and recycling

- Three bins: garbage, recycling and compost.
- Pickup days: see the **Austin municipal calendar** (in French).
- Not sure where something goes? Recyc-Québec's **Ça va où ?** app tells you in seconds.

Leaving

- No cleaning service nearby: please do the cleaning yourselves (no extra fees).
- Leave the house as clean as you found it.
- Central vacuum: the hose is in the entrance closet, with an outlet on every floor.

Before leaving the house

- [ ] Windows closed, handles down
- [ ] Outdoor fires fully out, BBQ cooled down
- [ ] Patio doors closed, handles up
- [ ] Front door locked
- [ ] Hallway thermostat set to 15 °C
- [ ] Used sheets stripped from the beds and put in the laundry basket
- [ ] Used sheets stripped from the beds and put in the laundry basket
- [ ] Cleaning done with the house products

In an emergency

911
Police, ambulance, fire. Emergencies only.

811
Info-Santé: a nurse answers health questions 24/7.

Magog hospital
Centre hospitalier de Memphrémagog, 50 rue Saint-Patrice Est, Magog.

Reach us
Our number is in the printed guide, in the house.

Around Magog

Things to do

VERY CLOSE
Saint-Benoît-du-Lac Abbey
An abbey on the lake. The monks' shop sells cheese, cider and applesauce.

OUTDOORS
Mont-Orford National Park
Hikes for every level, and supervised beaches in summer (Stukely and Fraser).

FALL
Mont Orford fall colours
On autumn weekends, the colours on the mountain are spectacular.

IN TOWN
Downtown Magog
Shops and cafés on rue Principale, then a walk along Lake Memphremagog.

FAMILY
Pointe Merry and Plage des Cantons
A waterfront park right downtown. Summer swimming at Plage des Cantons.

BIKING
Magog-Orford bike path
A scenic path starting at Pointe Merry. Bike rentals nearby in summer.

NATURE
Rivière-aux-Cerises marsh
Trails and boardwalks over the marsh, easy for kids. Great for birdwatching.

SUMMER
Bleu Lavande
Lavender fields in bloom in June and July, with a shop and picnic spots.

Where to eat

PIZZA
Pizzéria NO.900
Real Neapolitan pizza, right downtown.

BEER AND PUB
La Memphré microbrewery
Beer brewed on site, relaxed atmosphere.

GASTROPUB
Taverne 1855
Well-made tavern food, right downtown.

BISTRO
Bistro 4 Saisons
Careful French cooking in Orford. Perfect for a special dinner.

BISTRO
Au Comptoir Marcel
Good food and attentive service.

ITALIAN
Alessa Trattoria
Pizza and pasta, popular with families.

MEDITERRANEAN
Bistro Kóz
A wide choice of Mediterranean dishes. LeCornet ice cream right next door.

Enjoy your stay! · Dave and family
